

QUALITY AND ENVIRONMENTAL POLICY

EVERYCODE, a company specializing in the development, maintenance, and operation of technological platforms and projects, as well as accessibility inspection of websites and mobile applications, declares its commitment to protecting the environment and declares its permanent commitment to carrying out sustainable business practices, and, from a perspective of continuous improvement, shall work to reduce and minimize the environmental impacts of its activities as well as the use of natural resources, whilst observing and complying with applicable legislation and other requirements at all times.

It shall also work to promote this policy among the stakeholders within its scope of influence and other parties.

Furthermore, EVERYCODE is committed to maintaining a quality and environmental management system based on the international standards ISO 9001 and 14001.

Everycode Management, May 29, 2024.
